REGINA, September 2.

Regina papers of yesterday publish a manifesto of the thirteen opposition members of the assembly, objecting to prorogation on the advice of our executive unable to control the house, which gives the administration of public affairs in the hands of men not possessing the confidence of a majority of the representatives. They also object because the effect is to destroy all the legislation work of the session, thereby preventing the amendments to the school law and the ballot bill from coming into operation, also because it was the only means whereby a formal charge of attempted bribery against a member of the executive could be prevented from being made. They offered to elect a speaker for the purpose of closing up the legislation work of the session, but were informed by his honor that the house had already been prorogued. They directly charged the governor with partizanship in unnecessarily and unjustifiably proroguing the house to the injury of public business and in defiance of constitutional laws and usage. As the outcome of the charge of attempted bribery, Mowat caused Sutherland to be summoned on a charge of criminal libel. The case will be heard at two o'clock this afternoon. Haultain assumed responsibility for publishing the libel and the case will be fought to a finish.

CALGARY, September 5.

W. Sutherland, M. L. A., was committed for trial, on Saturday, for libel on D. Mowat, M. L. A., having alleged that Mowat tried to purchase his support by a promise of a salary of \$250 for deputy-speaker. Mowat has sued Haultain for civil damages of \$5,000 for same libel.

On Thursday Isaac Bellis, Sam Burton and C. Ellis were crushed to death in the stone quarry here. Ellis leaves a wife and small family almost destitute, and a subscription is being taken up for their relief.

On Friday the schooner Nettie Woodward foundered on lake Huron. Two of her crew drowned.

J. S. Tait, lawyer of Montreal, eloped with M. Moran's wife, an employee of Richelieu Hotel. He is short in his accounts by \$900.

The steamers Rugia and Norman, from Hamburg, arrived in new York having buried at sea respectively 5 and 4 cholera patients. Both have living patients on board, and a great danger of the disease getting a foothold in New York. In Hamburg the disease is on the increase. On Friday there were 733 new cases and 201 deaths.

F. Oliver will be at Edmonton this evening.

CAMPBELL YOUNG received a telegram from L. A. Hamilton, C. P. R. Land Commissioner, asking him to collect another car of roots, grains and grasses in addition to the one sent down last week. It is a most important matter that our district should make as good a show as possible, and every one should do their utmost to assist in making the collection one to do the district credit. Anyone having good samples of grain, roots, vegetables and grasses would confer a favor by having them at Fitzgerald & Lucas' office, next door to Hudson's Bay Company, or if they are unable to leave them, if they will notify C. Young, they will be called for.

The Vienna correspondent of the Daily Telegraph says that trouble between the Russian and Romanian governments is likely as a result of the attempt of a Russian steamboat captain to defy the health authorities at Port Sulina. The captain's vessel was suspected of carrying men infected with cholera, and was signalled to stop at quarantine. The captain ignored the order and began steaming away. The Romanian gunboats at Port Sulina thereupon prepared to fire upon the Russian. The captain then yielded and submitted under protest to the examination of his ship. No cholera was found on board.

A MEETING of the directors of the Agricultural Society was held in C. Young's office on Saturday at 3 p. m. Mayor McCauley, president; M. McLeod, vice president; D. C. Robertson, W. Stephens, George Long, R. Kelly and J. F. Adamson, directors, were present. Last year's catalogue was revised and altered a little, the main alteration was the striking out of the native horses and substituting ponies under 14 hands. The agricultural team was also struck out, as there was only one shown last year. D.

C. Robertson offers a special prize of \$5 for butter, and C. Young offers \$10 for the best collection of six grains collected in Alberta. It was arranged that the show should extend over two days this year; the stock show to be held on race track and other articles will be shown in some hall. Mayor McCauley, D. C. Robertson, J. F. Adamson and C. Young were appointed to draw up a code of laws for the society, also to arrange about having sports on the second day of the Exhibition. The show will be held on the 13th and 14th of October.

## BINDER TWINE.

There has been an exceedingly active time in binder twine, the rush for twine having set in earlier than was expected, and the demand has been larger than was looked for. These are favorable features, as they indicate that the harvest is well on, and also that crops are turning out fully as good, if not heavier than had been estimated previously. A good many alarmist reports were flying around about a shortage in the supply of twine, and as anything of this nature would delay harvest work, it was considered a very serious matter. It is re-assuring to know, however, that there will be plenty of twine, without causing any serious delays. The fact of twine becoming scarce at a few points for brief time, was magnified into something of a most disastrous nature. For instance, a telegram from Portage la Prairie, on Sunday, August 21, said that 100 binders would be prevented from starting to work on Monday (the following day) on account of no twine. Now, it appears that the stock of twine at Portage was exhausted on Saturday, but by the Monday morning following a new supply had been received, so that there was little or no delay. The fact is, that the people at points where twine became temporarily scarce, went fairly wild, and raised a great outcry, as though they were not going to get any more twine this season, when in reality fresh supplies were on hand in a brief time, and at no point was there more than a very brief scarcity. There has been no shortage of twine within the proper meaning of the word. At most, there has been but a temporary scarcity at a few points. This may be expected every season. This temporary scarcity, it will be noticed, was not so much this week as the week before, so that even if there had been great delay in getting in supplies, it would not have been very serious, as the harvest was only starting. In fact, many farmers, who were in after twine, did not intend using it at once, but were merely procuring their supply in expectation of starting to cut within a few days. When in some instances they could not get the twine on a moment's notice, they became frantic for fear they were going to be delayed, hence the alarming reports from a few country points.

The fact is, as stated, that the harvest has come in earlier than was expected, and this caused a brief scarcity on the start at a few points, but supplies were rushed forward so quickly that there was really no delay worth mentioning at any point. Another point is that farmers delay ordering until too late in the season, and often order less than they require at that. Farmers should place their orders early, and be sure they order all they will require. Dealers pay cash and sell on credit, and they cannot be expected to take the risk of carrying over a large quantity of twine. Another cause of some delay on the start, was the washout on the railway east, which held some early shipments.

The principal difficulty this season, (making the most of what trifling delay there has been,) has undoubtedly been due to the action of the Patrons of Industry in holding back their orders. All the lodges of Patrons had arranged to secure their twine through the executive of their order. These officers delayed ordering, presumably in the hope of getting a further cut in prices, until nearly the close of July. Then they placed their order for over 450,000 pound of twine. This big order coming so late in the season, made it difficult to fill it and other smaller orders received about the same time.

Later last week there was less talk of scarcity than earlier, and there appeared to be plenty of twine, though some brands which were wanted could not be had, and other brands had to be substituted. About 30 car loads have been secured in the States, principally in Minneapolis, which with the constant arrivals from the east will meet all requirements. At the close of the week orders were slackening up and there was plenty of twine, some points reporting a surplus. This refers to Manitoba. At some distant territorial points a shortage was reported, owing to local parties having underestimated requirements.—The Winnipeg Commercial.

The Toronto Mail says an agitation has been started in Quebec having in view the withdrawal of the right to appeal Canadian cases to the English privy council. In an editorial on the subject the Mail says Sir John Macdonald used to regard the appeal to the Throne as the essence of British connection, and severely denounced as traitors any who proposed the abandonment of the right. The conservative government certainly cannot destroy the final appeal without first forgetting the late Premier.

Medical men in New York are greatly interested in a new treatment of cholera, discovered at the Pasteur institute, in Paris, and it was learned on the 25th that in case the epidemic continues to spread, the efficacy of the treatment will be promptly and thoroughly tested by New York experts. Of this treatment, which is analogous to that employed by Jenner in smallpox and by Pasteur in hydrophobia. Dr. Haffkiene, who has been studying at the Pasteur institute for some years, claims to be the discoverer. He is confident that the inoculatory method will do for cholera what it has already done for smallpox and hydrophobia.

A cable from Valparaiso, via Galveston, to New York, says that Buenos Ayres is in a state of wild excitement. Meetings were held on the 29th in honor of President-elect Saenz Pena. There were some 3,000 radicals present. They interrupted the meeting with cries of "Down with Pena." A tumult arose and there were several collisions. The police attempted to disperse the radicals, and there was a riotous demonstration which almost reached the dignity of a battle in the Calle Florida. The radicals slowly retreated to the Piza San Martin, where they made another stand and there was more hard fighting. The whole city is stirred up, and in all probability the troops will have to be called out to preserve order.

# NORTHWEST ASSEMBLY.

REGINA, August 29.

MONDAY.

Cayley announced that himself and Messrs. Mowat, McKay and Reaman, had, on Friday, been selected by the lieutenant-governor as his executive? They had been sworn in on Saturday. He gave notice of a motion to consider supply to-morrow. The estimates would not differ greatly from those prepared by their predecessors.

Campbell's bill to incorporate the town of Whitewood passed a second reading. The ordinance restricts the granting of bonuses, limits, taxation to one cent on the dollar, and prevents councillors from receiving pay.

Mitchell's consolidation of the game ordinance was passed in committee and changes the opening of the duck season from August 15th to September 1st.

Wilkins moved in amendment that the date be August 15th, which was carried in committee, but was defeated in the house on motion of Haultain by the casting vote of the speaker.

Wilkins' bill respecting bulls passed the committee.

Davidson's bill to legalize a bonus by-law of Indian Head municipality, passed the committee.

Cayley's amendments to the judicature ordinance passed the committee.

The school bill was again considered in committee.

Betts moved the reconsideration of the clause providing for the erection of separate school districts, and on his motion Mowat's amendment, of a few days before, providing that only those ratepayers who desired a separate school should be compelled to support one was defeated, and the old provision compelling all the ratepayers of the religious faith of the separate school whether they wish it or not, re-inserted.

The bill was passed through the committee. The third reading of the bill stands for Wednesday.

The election bill was considered in committee and all but one or two clauses passed.

#### TOURING M. P.'S.

The touring party of conservative M. P.'s arrived in Winnipeg on Sunday night, 28th August, in the car "Toronto," on their return from the coast. They were particularly taken with the Edmonton district, but all parts of the country were much admired by the visitors. The hospitality of the people was very favorably commented upon, everyone with whom they came in contact, "winning and dining" them without stint. Hon. Mackenzie Bowell, and Mr. and Mrs. Hugh John Macdonald called on the members yesterday. In the evening the car was attached to the Brandon local and the party left for a tour through the Souris and Deloraine districts, returning to Winnipeg on the afternoon of Wednesday. They went east the same evening.

Mr. Otto Bernbach and Mrs. Pressing, both residents of Milverton, were united in the bonds of matrimony lately. They are quite an aged couple, the former being 75 and the latter 70 years of age.

It is expected that Mrs. Maybrick will soon be released from prison. It is understood that both Sir Charles Russell, the new attorney-general, and Mr. Asquith, the Home secretary, are in favor of her release.

Le Canadien, of Quebec, says there is no other solution of the Manitoba school question than that of absolute and complete recognition of the Catholic rights to have separate schools exclusively under their own control. The diplomacy which lead to the refusal of justice by the privy council wont pass current again.

As a rule it is useless to say anything about prices in an advertisement as each claims to sell cheaper than his neighbor and such statements are usually taken for what they are worth. But as regards any of the above lines I intend to excel for this season any way, and a comparison of goods and prices will certainly convince the most skeptical that there has been a revolution in prices.

PRICES HAVE COME DOWN.
